

Alpaca Babywear grows into its own!

After 5 years at the forefront of classic designs in 100% Baby Alpaca, 2009 will see the launch of an extensive range of new products and designs for new borns and christening gifts. Inspiration from her 2 year old daughter coupled with the fine craftsmanship of her Peruvian knitters has led to the introduction of beautifully knitted baby outfits. The main new lines include:

- Knitted Baby Dress
- Knitted Leggings
- Knitted Babygro
- Crochet Clogs with Matching Crochet Flower Detail Beret for Girls
- Sailor Booties with Matching Anchor Detail Beret for Boys

With no lanolin content or "prickle factor", Baby Alpaca is a wonderful fibre for babywear. It is soft and itch-free against baby skin and also sensitive skins. It is up to 30% warmer than the same weight of Merino wool and up to 4 times harder wearing. It does not pill or ball like cashmere can and springs back when squashed so does not crease easily. The fleece comes in at least 22 different natural colours so Samantha Holmes avoids using dyes in many of her products to retain the natural beauty of Alpaca and making her babywear 100% natural.

Samantha Holmes will be exhibiting at the following shows in 2009:

- Top Drawer Spring, Earls Court, 18-20 January, Stand E15
- Spring Fair, NEC Birmingham 1-5 February, Hall 4, Stand B45
- MODA – to be confirmed
- Pulse, Earls Court, 31 May – 2 June

Exclusivity – Versatility – Simplicity – Comfort - Purity - Luxury.

Each item is beautifully made and hand finished by skilled Artisans in Peru.

Note to Editors: Further details and images of the collection are available from Samantha Holmes.
