

Alpaca Fashion For All Occasions
Pulse Earl's Court, Stand F58, 1-3 June

For Autumn/Winter 08 Samantha is launching two styles of long cardigan, both made in her signature 100% Baby Alpaca. They are available to order immediately and will be stocked from end August 2008.

The first style is this Long Cardigan/Housecoat in Jersey Knit, with contrast knit sleeves. Its long rolled collar adds versatility to the shape and size of the garment. It can be worn casually as loungewear around the house, with jeans or even with eveningwear. It will be available in 4 natural tones - Charcoal, Ivory, Oyster and Taupe -and is priced £59.50 wholesale.

The second style is a sheer Square Cardigan in Butterfly Knit. The design of this cardigan gives it a more glamorous feel, with beautiful pointed ends and sleeves. It looks wonderful worn open with the knit cascading down to your knees, but looks equally good with one end thrown over the shoulder, pinned or tied. Again the shape and style of this garment makes it versatile and suitable for ladies of all shapes and sizes. The 3 colours available are Taupe, Charcoal, and Oyster and the wholesale price is £69.50.

For ultimate softness, Samantha uses purest Baby Alpaca which is fibre from young and extremely fine haired alpaca. Its hollow fibre makes it weightlessly warm so ideal for Summer or Winter. With no lanolin content or "prickle factor", it is suitable for babies and sensitive skins. It is up to 30% warmer than the same weight of Merino wool and up to 4 times harder wearing. It does not pill or ball like cashmere can and springs back when squashed so does not crease easily. The fleece comes in at least 22 different natural colours so Samantha Holmes avoids using dyes in many of her products to retain the natural beauty of Alpaca.
